Summary

Software Engineer with 3 years of experience at Suitmedia Digital Agency, Specializing in backend development and database management. Skilled in designing and building scalable backend services with .NET Framework/Core and optimizing databases using SQL Server or PostgreSQL. Experienced in diverse tech stacks including Laravel, Go, and Next Js, with strong exposure to cloud platforms (GCP, cPanel) and server management (Windows Server, RHEL, Network Config). A fast learner with strong communication skills, eager to contribute to innovative and collaborative dynamic team environment.

Education Background

- **Computer Engineering at Multimedia Nusantara University (2019 – 2023)**

Final GPA 3.95 out of 4.00

- The best graduate of Computer Engineering program in the 25th graduation
- Assisting lecturers in AI and API services projects

- **Bangkit Academy 2022 by Google, GoTo, Traveloka (14 Feb 2022 – 29 Jul 2022)**

Cloud Computing path student

- Studied Cloud Computing, Web Dev, soft skills, and English courses
- Selected for Company Based Capstone and get point for active team members

Work Experience

- **Software Engineer at Suitmedia Digital Agency (Jul 2022 – 21 Sep 2025)**

- **Full Time Contract Software Engineer (21 Sep 2023 – 21 Sep 2025)**

Building .NET Core 8 backend services, Maintain .NET Framework 4.8 for MVC system, Blazor WASM for CMS web, configure, maintain, and replicate data in SQL Server Management Studio and PostgreSQL, deploy backend services, frontend services, load balancer services using Microsoft IIS and RHEL 9, and configure Sharepoint data management.

- **Freelance Software Engineer (Des 2022 – Sep 2023)**
Handle backend services using .NET Core, database management using SSMS, and build .NET CMS boilerplate
- **Internship Software Engineer (Jul 2022 – Des 2022)**
Exploring .NET Framework, .NET Core, SSMS, and implemented in real projects.
Learn to work in a team, adapt to the work environment, and improve communication
- **Freelancer on Several Client Projects with Small Team (Aug 2022 – Sept 2023)**
Responsible building several backend services using Laravel and Go and database management using MariaDB and PostgreSQL
- **Research Assistant at Multimedia Nusantara University (June – Sept 2023)**
Assisting lecturers in research of classify disease on potato plant leaves. We used ensemble deep learning to build model that can classify six disease classes.
- **IoH Company Capstone Project – Integrated Chat Application (May – June 2022)**
Responsible for creating APIs with Express JS and Flask, design databases in firebase realtime database, and deploying API services on GCP Compute Engine and use Cloud Storage.
- **Lab Assistant - Electrical Circuit at Multimedia Nusantara University (Jan – June 2021)**

Organizational Experience

- **Vice Chairman for Association of Computer Engineering Students (Jan – Nov 2022)**
Assisted the Chairman in leading organizational activities, coordinating events, and ensuring smooth communication between members to achieve collective goals.
- **Academic Coordinator for Association of Computer Engineering Students (Jan – Nov 2021)**
Organized educational programs like tutor, study plan, academic event, and educational seminar.
- **Mentor for Mentoring UMN 2020 (June – Sept 2020)**
Guiding a small group of new students to get to know about 5C of Kompas Gramedia.
- **Volunteer Member of UTDU (Unit Tanggap Darurat UMN) (Okt – Nov 2019)**
Become a volunteer member of UTDU by simulating an earthquake disaster in Building B, UMN.

Training and Certifications

- Alibaba Cloud Associate – Cloud Computing
- Foundational C# with Microsoft
- Digital Talent Scholarship – DevOps (Professional Academy)
- System Design Masterclass 2025 by Udemy

- Udemy - The Complete 2022 Web Development Bootcamp by Dr. Angela Yu
- Google IT Support by Coursera

Skills

- **Programming Languages:** C#, PHP, Go, Python
- **Scripting:** Bash, Powershell
- **API Services:** Rest API, Microservices
- **Backend Framework:** .NET Framework, .NET Core, Laravel, Echo, Gin
- **Databases:** SQL Server, PostgreSQL, MariaDB, MongoDB
- **Data Management:** SQL Server Replication & Agent, PgPool, PgLogical, Stored Procedure, View, Function, Query Optimization, Data Modeling
- **Operational Workflow:** Git, Github, Gitlab, Docker, ActiveMQ
- **Deployment:** IIS, Nginx, Haproxy, Keepalived, GCP, AWS, cPanel, Microsoft Server, RHEL
- **Frontend Web:** HTML, CSS, JS, Blazor, ReactJS, NextJS, Responsive Design, API Integration
